

THE PARISH CHURCH OF ST MARGARET LOTHBURY†

Fabric report for the calendar year 2020

This year was dominated by the Covid 19 pandemic. Government guidelines, restrictions and lockdowns meant the church building either remained closed or opened with less frequency than usual. While fully complying with all Government guidelines and restrictions, some works were able to be carried out.

- Blocked guttering has been cleared;
- Rainwater damage to an area of ceiling in the small chapel has been inspected by our surveyor and will be repaired once the area has dried, now the blocked guttering has been cleared;
- Pest control/maintenance carried out their regular inspection/treatment;
- The kitchen tap over the sink has been replaced;
- The fire extinguishers have been serviced; and
- The railings at the front of the building have been repainted. This was gifted to us by a neighbouring business while their premises were being repainted.
