

THE PARISH CHURCH OF ST MARGARET LOTHBURY†

Report on the Fabric, Goods & Ornaments of St Margaret Lothbury for the year 2023 & laid before the 2024 APCM

As is often the case at St Margaret's there have been no acquisitions or disposals during the last year but it is the intention that in the coming months we will purchase new glassware for the credence table. The Operations Manager is clear that this is overdue but is equally clear that we need to combine style with economy. It is my hope that next year I shall be able to report our success in this matter.

One of our Parish Clerks, Mr Edmund Townend, together with his wife & sons has taken responsibility for maintaining the silverware to a high standard; this is not an easy task & we are very grateful

In regards to Fabric, much has been achieved & both my fellow churchwarden & I wish to express our gratitude to both Cliff Radmore & Will Jackson for ensuring that a plethora of projects have been completed on time & to budget. These projects are:

A new heating system

New AV system

A new boiler

Thermostatic Valves on all radiators

Repairs to the Ironwork outside the main doors

The refurbishment of the Loos with a generous grant from the Cleary Trust.

It has been a year of re-pristination which is very pleasing.

Will Taylor.
